Date: June 25, 2007

Mr. Craig Kindlin, Natural Resources Manager
Department of the Army
Facilities Engineering Division
Letterkenny Army Depot
Chambersburg, PA 17201-4150

Dear Craig:

On June 11, 2007, I conducted an aerial survey for gypsy moth-caused tree defoliation at Letterkenny Army Depot. Although no defoliation was detected at your site, approximately 4.8 acres of light defoliation (30-50%) and 5.7 acres of heavy defoliation (51-100%) were detected on adjacent lands (Figure 1)

If you anticipate requesting either financial or technical assistance for gypsy moth control in 2008, please contact Brad Onken (304) 285-1546 or me (304) 285-1555 before August 24, 2007.

Please contact me at the above number if you have any questions regarding this aerial survey letter.

Sincerely,

Rodney L. Whiteman
